## EATON POWER DISTRIBUTION UNIT (PDU)

The Eaton PDU provides reliable data center power distribution for both raised and non-raised floor applications. To deliver effective power management and monitoring, the Eaton PDU incorporates the Eaton Energy Management System, optimizing both utilization and availability down to the branch circuit level. The optional Power Xpert Gateway Series 1000 Card provides [Web-enabled](#), real-time monitoring for power quality status and fast response to power-related events.

To ensure the high performance required for today's data centers, this Eaton-designed and manufactured PDU delivers maximum flexibility in an integrated, factory-tested package:

### FEATURES & BENEFITS:

- Integrated isolation, monitoring, distribution and a wide array of options
- Scalable architecture and space-saving design
- Comprehensive monitoring and connectivity options
- Unparalleled ease of use through front-access only design, top and bottom cable access, and spacious wire-ways
